New Source Review newspaper advertisements for construction permit applications, March 20, 2008. The following public notices have been published in the newspapers listed below each advertisement. These newspaper advertisements for construction permit applications were published on one of the following dates: March 18, March 19, or March 20, 2008. Public notices are generally published every two weeks. The previous publication of public notices was March 6, 2008.

### **PUBLIC NOTICE**

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction and/or modification of air contaminant sources as noted below. The proposed construction and/or modification is subject to part 1200-3-9-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mr. Barry R. Stephens, Director, Division of Air Pollution Control, 9<sup>th</sup> Floor, L & C Annex, 401 Church Street, Nashville, Tennessee 37243-1531 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Individuals with disabilities who wish to participate should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such contact may be in person, by writing, telephone, or other means, and should be made no less than ten days prior to the end of the public comment period to allow time to provide such aid or services. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 12th Floor, 401 Church Street, Nashville, TN 37243, 1-866-253-5827. Hearing impaired callers may use the Tennessee Relay Service, 1-(800)-848-0298.

The applicant is <u>Daugherty Petroleum</u>, <u>Inc.</u> with a mailing address of <u>120 Prosperous Place</u>, <u>Suite 201</u>, <u>Lexington</u>, <u>Kentucky 40509</u>. They seek to obtain an air contaminant permit (Division identification number: <u>13-0085-01/61752</u>) for construction of a <u>Natural Gas Fired Compressor Engine</u> located at <u>Fonde Road</u>, <u>Erwin</u>, <u>TN 37650</u>. This proposed operation would consist of a natural gas fired compressor engine used to move gas into an interstate gas pipeline to Rogersville, TN to market. Because of the amount and type of emissions, the use of air pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Ms. Hymelia Craig is the assigned Division person.

For Clairborne County Clairborne Progress -- published once on or before Thursday, March 20, 2008.

## **FIRST APPLICANT**:

The applicant is <u>Seymour Manufacturing Company</u>, <u>Inc.</u> with a mailing address of <u>219 Handle Street</u>, <u>Sequatchie</u>, <u>TN 37374</u>. They seek to obtain an air contaminant permit (Division identification number <u>18-0105-04/61708</u>) to modify an existing <u>Woodworking Operation</u> located at <u>1044 East First Street</u>, <u>Crossville</u>, <u>TN 38555</u>. The proposed modification is to increase the existing hours of operation from 2,000 hours to 2,200 hours. Cyclones are used for pollution control. There would be no physical construction. There would be an increase in the regulated air contaminants emitted by this source. Mr. W. Medley is the assigned Division person.

#### SECOND APPLICANT:

The applicant is <u>Seymour Manufacturing Company</u>, <u>Inc.</u> with a mailing address of <u>219 Handle Street</u>, <u>Sequatchie</u>, <u>TN 37374</u>. They seek to obtain an air contaminant permit (Division identification number <u>18-0105-05/61710</u>) to modify an existing <u>Woodworking Operation</u> located at <u>1044 East First Street</u>, <u>Crossville</u>, <u>TN 38555</u>. The requested modification is to increase the existing hours of operation from 2,000 hours to 2,200 hours. Cyclones are used for pollution control. There would be no physical construction. There would be an increase in the regulated air contaminants emitted by this source. Mr. W. Medley is the assigned Division person.

#### THIRD APPLICANT:

The applicant is <u>Davis Concrete</u>, <u>LLC.</u> with a mailing address of <u>1670 Crabtree Road</u>, <u>Crossville</u>, <u>TN 38571</u>. They seek to obtain an air contaminant permit (Division identification number <u>18-0128-01/61746</u>) for modification of an existing <u>Concrete Batch Plant Operation</u> located at <u>1670 Crabtree Road</u>, <u>Crossville</u>, <u>TN 38571</u>. This operation consists of concrete batch mixer, concrete silo, crushed limestone aggregate stockpiles and associated equipment to produce ready mix concrete. A baghouse will be used for pollution control. The proposed modification is to replace existing cement silo and increase annual output to 40,000 cubic yards. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. W. Medley is the assigned Division person.

For the Cumberland County Crossville Chronicle -- published once on or before March 20, 2008.

The applicant is <u>Peebles Fayette County Funeral Home</u> with a mailing address of <u>P.O. Box 250, Somerville, TN 38068</u>. They seek to obtain an air contaminant permit (Division identification number: <u>24-0100-01/61762</u>) for construction of a <u>Natural Gas Incinerator</u> located on <u>18020 Highway 64, Somerville, TN 38068</u>. This proposed operation would consist of a cremator and associated equipment used to cremate human remains. Natural gas would be used for fuel. An afterburner would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. E. King is the assigned Division person.

For the Fayette County Fayette Falcon -- published once on or before Thursday, March 20, 2008.

The applicant is <u>Universal Forest Products</u>, <u>Eastern Division</u>, <u>Inc.</u> with a mailing address of <u>2801 East Beltline Ave. NE</u>, <u>Grand Rapids</u>, <u>MI 49525</u>. They seek to obtain an air contaminant permit (Division identification number: <u>32-0202-01/61802</u>) for modification of a <u>Woodworking Operation</u> located at <u>530 West Morris Blvd.</u>, <u>Morristown</u>, <u>TN 37813</u>. This existing operation consists of saws and associated equipment. The requested modification is to update the emissions. Baghouses are used for pollution control. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. J. Martin is the assigned Division person.

For the Hamblen County Citizen Tribune -- published once on or before Thursday, March 20, 2008.

The applicant is Frito-Lay, Inc. with a mailing address of 101 Industrial Blvd, Fayetteville, TN 37334. They seek to obtain an air contaminant permit (Division identification number: 52-0059-10/60899) for modification of a Propane/Natural Gas-Fired Boiler located at the same address. This existing operation consists of a boiler and associated equipment used to produce steam. Natural gas is used as fuel and propane is used as a backup fuel. The proposed modification is to increase allowable emission limits as a result of updated EPA emission factors. Because of the type and amount of emissions, pollution control equipment is not used. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. E. King is the assigned Division person.

For the Lincoln County Elk Valley Times -- published once on or before Thursday, March 20, 2008.

The applicant is <u>Valmont Industries</u>, <u>Inc.</u> with a mailing address of <u>P.O. Box 358</u>, <u>Valley</u>, <u>NE 68064-0358</u>. They seek to obtain an air contaminant permit (Division identification number <u>58-0090-01/61749</u>) for relocation of a Self-contained Shot Blasting & Surface Coating Operation located at 1950 Industrial Blvd.,

<u>Jasper, TN 37347</u>. The source consists of a self-contained shot blaster and surface coating spray booth. Baghouses would be used to for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. W. Medley is the assigned Division person.

For the Marion County Jasper Journal -- published on or before March 20, 2008.

The applicant is <u>Hendrickson Trailer Suspension Systems</u> with a mailing address of <u>151 International Blvd.</u>, <u>Clarksville, TN 37040</u>. They seek to obtain an air contaminant permit (Division identification number: <u>63-0159-01/61776</u>) for modification of a <u>Surface Coating Operation</u> located at the same address. This existing operation consists of a paint spray booth, drying oven, and associated equipment used to paint trailer suspension systems. Exhaust filters are used for pollution control. The requested modification is to increase the allowable permit limit for volatile organic compounds. There would be no physical construction. Regulated air contaminants emitted by this source would increase. Mr. M. Reynolds is the assigned Division person.

For the Montgomery County Leaf-Chronicle -- published once on or before Thursday, March 20, 2008.

The applicant is <u>Meadow's Corner</u> with a mailing address of <u>P.O. Box 1147</u>, <u>Hopkinsville</u>, <u>KY 42241</u>. They seek to obtain an air contaminant permit (Division identification number: <u>75-0611-01/61759</u>) for a <u>Gasoline Dispensing Facility</u> located at <u>4205 Manson Pike</u>, <u>Murfreesboro</u>, <u>TN 37129</u>. This proposed operation would consist of three (3) underground tanks and eight (8) gasoline nozzles. Stage I and Stage II vapor recovery would be used for gasoline emission control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. W. Collins is the assigned Division person.

For the Rutherford County *Daily News Journal* -- published once on or before Thursday, March 20, 2008.

# FIRST APPLICANT:

The applicant is <u>Exide Technologies</u> with a mailing address of <u>364 Exide Drive</u>, <u>Bristol</u>, <u>TN 37620</u>. They seek to obtain an air contaminant permit, (Division identification number: <u>82-0256-04/61709</u>) for modification of the three phase assembly lines at <u>364 Exide Drive</u>, <u>Bristol</u>, <u>Tennessee</u>. The existing operation consists of the three phase assembly in the manufacturing of batteries. A fabric filter is used for pollution control. The requested modification is for an increase in the allowable emissions of particulate matter. There would be no physical construction. Regulated air contaminants would be emitted by this source. Mr. Steven R. Simpson is the assigned Division person.

#### SECOND APPLICANT:

The applicant is <u>The Robinette Company</u> with a mailing address of <u>P.O. Box 3567</u>, <u>Bristol, TN 37620</u>. They seek to obtain an air contaminant permit (Division identification number: <u>82-0223-01/61775</u>) for modification of <u>Flexographic Printing Presses</u> at <u>250 Blackley Road</u>, <u>Bristol</u>, <u>TN 37620</u>. This existing operation consists of flexographic printing presses and associated equipment. Because of the amount and type of emissions, the use of air pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. J. Martin is the assigned Division person.

For the Sullivan County *Bristol Herald Courier* -- published once on or before Thursday, March 20, 2008.

The applicant is <u>EQ Mobile Recycling Services</u>, <u>Inc.</u> with a mailing address of <u>540 Independence Blvd</u>, <u>Mt. Airy</u>, <u>NC 27030</u>. They seek to obtain an air contaminant permit (Division identification number: <u>82-0422-01/61765</u>) for construction of a Solvent Recovery Operation located at AGC Flat Glass North America, Inc., 1450 Lincoln

Street, Kingsport, TN 37660. This proposed operation would consist of a portable liquid separation unit used to recover a target solvent from the liquid waste generated by AGC Flat Glass North America, Inc. A diesel generator would be used to power the unit. Heat energy would be applied to the liquid waste to vaporize the target solvent. The target solvent vapor would then be condensed and stored for reuse at the site. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. D. Logsdon is the assigned Division person.

For the Sullivan County Kingsport Times-News -- published once on or before Thursday, March 20, 2008.
